SUMMARY

I am an enthusiastic and self-driven fresher in the IT field, eager to learn and contribute to real-world projects. I have strong fundamentals in Java, Web Development, and Database concepts. With a passion for problemsolving and continuous learning, I am looking forward to working in a collaborative and innovative environment.

PROJECT

Food Delivery Application

The Food Delivery Application is a dynamic web-based system that allows users to browse restaurants, view menus, place orders, and track their food delivery. The system is built using Java technologies (JSP, J2EE, JDBC, Core Java) and SQL for back-end data management. It simulates the core functionalities of real-world food delivery platforms like Swiggy or Zomato.

Technologies Used:

- **JSP** (JavaServer Pages) – for front-end web interface
- J2EE (Java 2 Enterprise Edition) – for web architecture and servlet handling
- JDBC (Java Database Connectivity) – for database interaction
- SQL – for data storage, retrieval, and management
- Core Java – for application logic and object-oriented design

EDUCATION

Board of Intermediate   **Nov 2019 - Jul 2021**

Swami Vivekananda Jr Collage, Anantapur Dist

Bachelor of Technology (B. Tech) in Computer Science and Engineering

Chadalawada Ramanamma Engineering College, Tirupati   **Jun 2021 - Aug 2025**

TECHNICAL SKILLS

- **Java**
- **JDBC**
- **JSP**
- **J2EE**
- **HTML & CSS**
- **Hybernate**
- **SQL**
- **HTML**
- **CSS**

TECHNICAL SKILLS

- **Soft Skills:** Teamwork, Problem-Solving, Analytical Thinking.
- **Languages:** English, Telugu.
- **Certifications:** Java Full Stack Web Development from Tap Academy, Java (Basics) from Hacker Rank.
- **GitHub:** https://github.com/VeeranjiKolatla.
